

# CONCRETE

## *A Tradition of Excellence*

### PROJECT:

Connecticut Convention Center: 540,000 square feet building with 10-story atrium on a 30-acre site.

### SERVICES:

Placed 65,000 cubic yards of concrete and assembled 9,000 tons of reinforcing steel. Installed 1 million square feet of shored CIP slabs. Erected and placed two-10 story shear walls, approximately 20-10 story high columns topped with a ring beam the length of a football field. Also situated rebar and concrete over 2,000,000 square feet of metal deck slabs.

### LOCATION:

Hartford, Connecticut

CONCRETE • SITE DEVELOPMENT • DEMOLITION • REMEDIATION • TRANSPORTATION
