A Tradition of Excellence

PROJECT:

Hangar 2 Sanitary Sewer Improvements. T.F. Green Airport
Contract # 23268

SERVICES:

Prepared site including vacuum excavation, CCTV inspections, and reclaiming of trenches. Furnished and installed 2,120 linear feet of 8 inch PVC, 2" and 1.5-inch HDPE fusion weld force main within secure airport tarmac and operational parking zones. Installed new grinder pumps and air release manholes to tie in existing buildings and remove existing Individual Sewage Disposal System (ISDS). Restored asphalt and concrete on tarmac and parking areas.

LOCATION:

T.F. Green Airport, Warwick, Rhode Island
