

REMEDIATION

A Tradition of Excellence

PROJECT:

Monterey Place

SERVICES:

Remediated 1.97 acres containing polluted urban fill and bulky waste. Removed 55,000 tons of contaminated soil and 3,500 cubic yards of bulky waste, including contaminants such as TPH, SVOC's, VOC's, and RCRA metals. Upon completion of site remediation, imported clean soil to backfill and restore the site to its original condition.

LOCATION:

New Haven, Connecticut
