

TRANSPORTATION

A Tradition of Excellence

PROJECT:

Relocation of Route 72, Plainville/Bristol, CT DOT Project #17-137

SERVICES:

Constructed three miles of expressway and secondary roads requiring 400,000 cubic yards of excavation. Created two wetland mitigation sites, two new bridge structures and box culvert, as well as rehabilitation of bridge structure. Provided several modular and cast-in-place retaining walls, cofferdams, dewatering, and milling and paving. Utility work consisted of water main and services, storm and sanitary sewer and services, roadway illumination and traffic control devices. Installed finish work: landscaping, metal beam rail, four miles of sidewalk, and a noise barrier wall.

LOCATION:

Plainville/Bristol, Connecticut
